

T u n e y T r i o

Come play in the spray park and “jam” with the new TuneY Trio. The flowing lines of these jazzy musicians really get you into the groove as they play’n’spray their tunes. This musical trio is made up of three players – Trump, Clarence and Saxi. Each of them is available with or without the I.S.E music & sound option. To create a playful beat in your park the TuneY Trio can be purchased individually or as the full group.

Saxi

Play your tuneY tube and jam with Saxi the Saxophone player. Saxi sprays water out the bottom of his saxophone as he grooves to the tune. At 4m/13 feet tall, Saxi is an impressive musician providing a 3m (16 x 10 ft) spray radius.

Clarence

Join in with Clarence as he blasts a tune on his clarinet. Water sprays from 4 nozzle “keys” and out the end of his clarinet. Clarence is really feeling the groove as he curls forward to hit that high note! At 4m/13 ft tall and a spray radius of 3m (14 x 10 ft).

Trump

Play along with Trump as he sets a new jazzy beat for the park. Water streams out the end of his trumpet to create a playful shower. At 4m/13 ft tall with a spray radius of 3m (16 x 10 ft).

I.S.E – Interactive Sound Enhancement

Here is a new way to add some sound to any park! The I.S.E feature can bring interactive sound to many of the current spray components and fit in any park design or theme. Not only does this enhance the play value of the component with the 4 additional spray nozzles but you can really get creative with the sound effects – animal sounds, cars, music and so much more.
