# the revolution series

spin. splash. spray. 360°.

Waterplay's revolution series is an exciting group of water features designed to spin, splash and spray in a 360° radius. The revolution series allows kids to have complete control of the water feature's rotation. With multiple handle designs and options for both toddlers and the biggest kids in the park, the revolution series is designed to create an uprising in your community.

- The revolution series features two handle options for each water feature.
- Choose different colors for the lower base and upper column of each component.
- True to the Waterplay name, the quality finish and seamless welds of the revolution series is unmatched in the industry.

## spin soaker

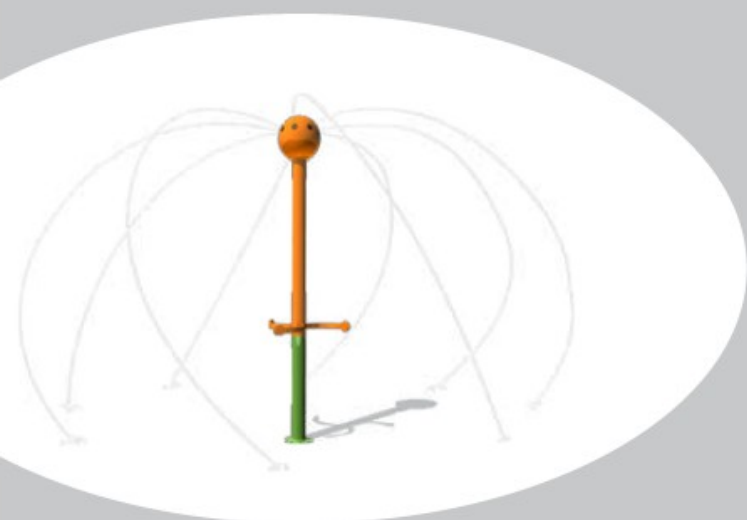

C02-112

Eight nozzles playfully spray water from the customizable top sphere as kids control the feature's rotation. Choose different colors for the lower and upper base for an exciting addition to the family area in your park.

## spin splasher

C02-275

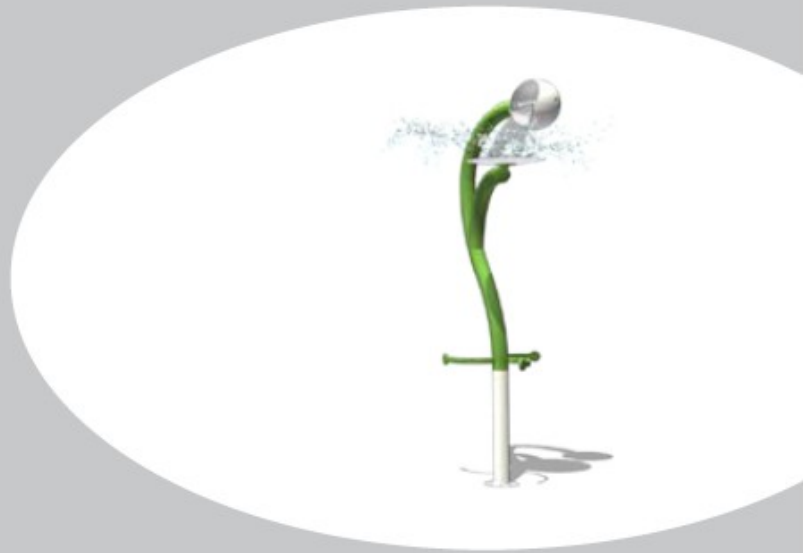

High-action in every way. The Spin Splasher features a dumping bucket with an adjustable splash plate so that you have complete control over water placement on the spray deck. Spin, splash, smile... repeat.

## twist 'n spill

C02-273

Water cascades from the dumping bucket as kids below control where the water will splash. Built for maximum fun in high-action areas, the Twist 'n Spill comes with an adjustable splash plate.

## twist 'n spill 2

C02-274

Just like the Twist 'n Spill but with two dumping buckets for twice the action! This component was designed for maximum play value and big splashes. Get ready to soak everything in sight with the Twist 'n Spill 2.

## spiral spray

C02-276

Featuring a unique spiral that hurls water high into the air, kids can revolve the component and control where the water lands. With multiple nozzle options, the Spiral Spray is sleek and versatile.

## spiral spray mini

C02-277

Jeepers, I wish Waterplay made the Spiral Spray a little shorter. We did! Sneak it into the nooks and crannies of your park or create a garden of Spiral Sprays in different colors and sizes.

## toddler twister

C02-278

Gone are the days where it's only the big kids who get to have all the fun. Easy to rotate and very predictable, the Toddler Twister will have young tots lining up to show off their cool feature to the big kids!
