

DESIGN - ENGINEERING - CONSTRUCTION

A NEW ERA IN PLAYSPACE DESIGN

# Bespoke Play Structure Design and Construction

Our capabilities and approach to custom playground design is as individual as your imagination, creating destination playgrounds of every size and composition, working collaboratively along the way to make each vision a reality.

Our combined Design Services Team has the capacity to not only complete detailed design, but also complete engineering and construction detail for all systems and ancillary items.

## Playground Design and Construction

# Aquatic Design and Construction

We have established a number of Australian manufacturing partnerships to deliver on our visions - with proven award winning playgrounds of their own to attest to - giving us the confidence to reach higher in our playground designs.

Recent projects are just samples of our capabilities to create truly unique designed recreational environments - for both dry and wet play.

## Some recently completed projects

*Lions Park - Gladstone*

*Harvest Rise - Greenbank  
Elliot Springs - Lendlease Townsville*

*Wynnum Aqua Park - Brisbane*

# A PROFESSIONAL QUALIFIED TEAM

Delivering today's recreational spaces
